

LEVERAGE THE POWER

of real time utility data to make better business decisions.

KOBIONA 360° Plus is a proprietary utility management software that provides aesthetic dashboards and reporting tools that pack a punch.

KEY BENEFITS OF 360° PLUS

Gain full visibility into your utility accounts, expenditures, contract start and end dates, terms, suppliers, rates, and products.

Utilize the suite of reporting tools to evaluate projected vs. actual budgets, identify strongest and weakest energy performing facilities.

Confirm Billing Accuracy - line item utility bill data is cross referenced with supplier contracted rates to ensure a match.

Multiple credentials - provide anyone in your organization access at no additional cost.

Data Security - Keep your credentials secure by authenticating in real-time. We don't hold or have access to your utility account credentials.

Contact your KOBIONA advisor to learn more.
